

The Center for Wooden Boats
28th Annual Lake Union Wooden Boat Festival
July 3-5, 2004

Application for Vessel Participation

We invite you to participate in our annual community event, the Lake Union Wooden Boat Festival, now in its 28th year.

The first people of the northwest had a sophisticated canoe culture. The next wave of inhabitants came by boat. After that, communication and commerce was predominantly done by steamers for the first four decades of towns and villages.

While all wooden boats are welcome, this year we plan to focus special attention on vessels with a northwest heritage. If your boat was designed, built, used or has any historic connection to the northwest, we want to point this out to the festival attendees. Whether your vessel is freighter, pleasure craft, day sailor, steamboat, fishing boat, canoe, or cruising sailboat, we all share a common bond in our maritime community.

Our Wooden Boat Festival will be an opportunity to show and tell about your vessel and how it is part of the maritime legacy we all share.

If you would like to have your vessel participate in The Center for Wooden Boats 28th Annual Lake Union Wooden Boat Festival, please complete the application request below and on the appropriate enclosed form (for in-water or on-shore exhibition of boat) and send to:

Doug Weeks, Festival Coordinator
The Center for Wooden Boats
1010 Valley Street, Seattle, WA 98109
Phone: 206-382-2628; E-mail: dweeks@cwbo.org

Please include a photo appropriate for posting on the Festival website.

Owner Name:

Boat Name:

Describe vessel's connection to Northwest, any special features and its history or historical significance.
